ENGINEERING WORKS

*Precisely Engineered*

Moulds | Dies | Fixtures | SPM  
All type proto sample

## ABOUT US

Piyush Engineering Works, established in 2008, is a trusted name in the manufacturing industry with 18 years of hands-on experience. We specialize in delivering practical, reliable, and cost-effective solutions to real industrial challenges. We design and manufacture SPM machines, jigs & fixtures, dies, moulds, tools, and prototype samples, along with complete tool room solutions. Our strength lies in understanding customer problems deeply and converting them into efficient, production-ready solutions. With a strong focus on precision, innovation, and quality, we support industries in improving productivity, accuracy, and operational efficiency. Every project we deliver reflects our commitment to engineering excellence and customer satisfaction. We don't just manufacture machines — we manufacture solutions.

## OUR VISION

Designing and Manufacturing the Future by Unlocking the Hidden Potential of Industrial Innovation.

## OUR SPECIALITY

- Customized SPM Machines for complex industrial applications
- Precision Jigs, Fixtures, Dies & Moulds
- Prototype Samples from concept to reality
- Complete Tool Room Solutions
- Practical, cost-effective solutions for real shop-floor problems

## OUR VALUES

PUNCTUAL

INTIGRITY

UNITY

SUSTAINABILITY

HONESTY

## OUR MACHINING FACILITIES

Machines CNC M/C NO. 01

Machines CNC M/C NO. 02

Machines VMC M/C NO. 01

Machines VMC M/C NO. 02

Machines VMC M/C NO. 03

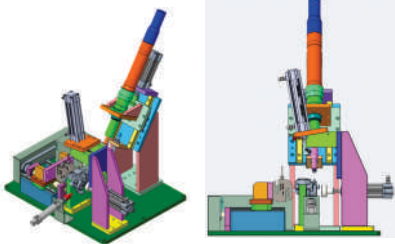

Machines VMC M/C NO. 04

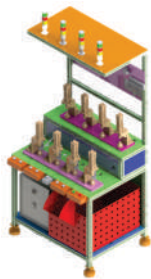

Machines BFW M/C NO. 05

# OUR PRODUCTS

FRONT CALIPER BLEEDER TORQUING & PISTON SLIDING FIXTURE

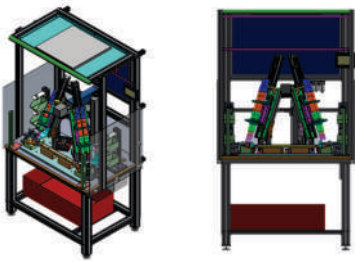

HOSE CONNECTOR LEAKAGE TESTING

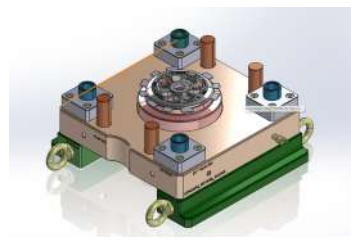

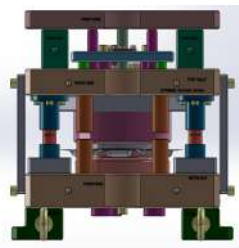

LASER MARKING M/C FOR FORGED PART

RIVETING MACHINE FOR CLUTCH HOUSING

SCREW TORQUING FIXTURE

TRIMMING TOOL

# OUR SPECIALITY

Moving Hub

Fix Hub

Bearing Cup
